

“Planting a tree is a plan for ten years. Educating a child is a plan for a hundred.”

– Korean proverb

The history of Koreans in the UK has grown deep and strong, like the roots of a great tree.

The Hanyoung Scholarship Foundation is a non-profit, volunteer-run organization established by members of the Korean community in the UK.

Our mission is simple but profound: to support students in the UK facing financial hardship and to promote the education of second- and third-generation Korean youth.

At the heart of our work is a belief that raising and guiding the next generation is the most important responsibility we hold as adults. Through scholarships, educational programs and support to Korean schools, we aim to lay the foundation for a brighter future, nurturing not only academic excellence, but cultural pride and identity.

We warmly welcome all those who share our vision and values to join us in this meaningful journey.

Your support can help grow the future.

Message from the Chairperson

Welcome to the Hanyoung Scholarship Foundation.

Hanyoung Scholarship Foundation was founded in 2018 by dedicated members of the Korean community in the UK, to support primary, secondary, and high school students facing financial hardship, as well as Korean schools and their students in need. There are 23 Korean schools in the UK, including one dedicated to children of North Korean defectors, where future global leaders are growing and learning.

Unfortunately, there are children among us who face financial hardships or are excluded from government education support due to visa or residency status, placing them in disadvantaged situations. Our mission is to provide vital support to these children, helping them overcome challenges and realize their full potential. At the same time, we support Korean schools that nurture language, culture, and identity.

In today's world, a nation's future depends on its people. By empowering our brightest students, we invest in future global leaders who will proudly carry their heritage and make a difference worldwide.

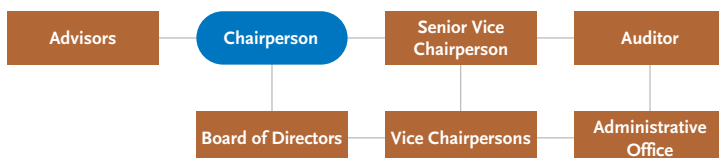

We are committed to shining a light of hope on their path, and warmly invite you to join us in this important mission.

Thank you.

Organizational Structure

Mission and Objectives of the Hanyoung Scholarship Foundation

The Hanyoung Scholarship Foundation aims to identify and support talented primary, secondary, and high school students in the UK, especially those from low-income families, Korean and multicultural Korean households, and North Korean defector families, who fall outside the scope of government educational support.

Our goal is to nurture future leaders and build bridges between Korean, British, and local communities through education and opportunity.
